# SCHOOL REPORT.

---

HANCOCK, N. H., Feb. 22, 1892.

Voted in Board meeting to submit the Secretary's report as the annual report of the School Board.

ALDEN S. WOOD,  
ADDISON C. WARE, } School  
ORLAND EATON, } Board.

---

The Board organized by choosing Alden S. Wood, Chairman, and A. C. Ware, Secretary and Treasurer.

In conducting the affairs of the District during the past year, we have been confronted by a far less number of complicated and perplexing questions, requiring solution, than was the case in the year preceding.

The question of a location for the school house at the Centre, while still unsettled, is in the hands of the Supreme Court of the State, from which a decision is expected in a short time, which will undoubtedly end the controversy.

In regard to the school house at the Centre, the Board by a majority vote, decided to carry out the very clearly expressed will of the greater part of the District, by making use of the Seminary building, and, as will be seen by the financial report, has paid for the remodelling of the building to the extent of the appropriation available for that purpose.

In accordance with the vote of the town, No. 9 school house has been thoroughly repaired, and refurnished with adjustable desks of the same kind as those recently placed in the other outlying school houses.

The expense exceeded the estimates somewhat, on account of the condition of the interior, which made it necessary to remove the plastering from the walls and replace it with new, and on account of the careless way in which the building was recently painted, whereby the windows were so streaked with paint that it was found to be impossible to clean them, and made it necessary to obtain new sash.

In regard to the schools, we are happy to be able to report them as having been generally successful, and in several instances

particularly so, as was evidenced by the perfect readiness in answering questions, even if they were such as were not directly suggested by the text book—showing a development of thought; and by a deportment which indicated that good behavior had become a habit.

In the procurement of suitable teachers for the various schools, it is an easy matter to ascertain their qualifications, so far as their knowledge of the branches required to be taught is concerned. But to judge of their disciplinary powers, and their aptitude to govern the particular temperaments with which they are to be brought in contact, is a much more difficult matter, and we feel it to be a duty to impress upon parents the necessity of supplementing the efforts of the teacher to maintain a reasonable discipline of the school.

The past has given ample evidence that the people of this town are thoroughly alive to the interests of their schools, but it is possible that they do not always realize how much they might easily do to advance those interests by giving the teacher their cordial support, particularly when a spirit of insubordination is inclined to show itself in the school.

In the matter of attendance, also, it is impossible to be too particular. With so many schools and the small amount of money we are able to devote to each, the school year is at best short, and parents should see to it that their children make the most of their opportunities. Sickness or other unavoidable causes necessitate an occasional absence, but they should be as few as possible.

During the year pupils from Greenfield and Peterboro' have been admitted to one of our schools, for which tuition has been received.

Two "Complete School Charts" have been purchased, and have been so highly commended by the various teachers that we think it would be advisable to add to the number the coming year.

No changes have been made in the text books with the exception of the introduction of Avery's chemistry and Keetel's French grammar in the High School.

The appropriation for the High School having been placed in our hands to be expended, we thought it advisable to procure two teachers and have two departments, and the excellent results attained convince us that the town will be unwilling to forego the benefits of a similar school so long as there are so large a number of pupils of a suitable age to enjoy its benefits.

A report of attendance, etc., is appended to the tabular report of schools.

## ROLL OF HONOR.

## PERFECT RECORD FOR THE YEAR.

Leah M. Stone, Harry Washburn, Mary L. Barber, Florence A. Hayden, Frank W. Barber, John A. Hill, Bertie A. Hayden.
